

Dear Parents and Carers,

We understand that you will naturally have some questions about our October Half Term Camp. So that you can make a fully informed decision, we ask that you consider the following:

What we will be able to do:

- Offer a daily 8:30am early bird drop off
- Offer a daily 9:00am - 3:00pm timetable
- Offer a daily programme consisting of 3 different stations/activities. One based in the hall for dance/gymnastics, one indoor based for arts and crafts and one outside for sporting activities.
- Children will be placed in bubbles of no more than 15 each day.
- We will keep children in each bubble for the duration of their time with us, and with as little change as we can manage throughout the course of the camp programme.
- Each bubble will remain with the same members of staff for the duration of a camp day.
- Maintain good hand hygiene throughout the day.
- Children will be asked to use hand sanitiser as they enter and leave the School, and after each rotation of activity/exercise. Doors and windows will be left open where possible to allow for ventilation.
- All equipment will be sanitised and cleaned after use in preparation for the next bubble (group)
- Rotation will happen every 45 mins - 60 mins with children following a strict flow system to enable bubbles to remain independent and non contact.

What we won't be able to do:

- Allow parents into the school premises
- Allow "drop in" options for people that would like to sign up on the day. All bookings must be made in advance
- Keep siblings in the same bubble (group) for the duration of their day. Bubbles will be put together as normal and be age specific.

If for any reason the camp cannot go ahead and needs to be cancelled, then a full refund or credit will be issued. We expect parents and carers to constantly monitor their children's temperature and look out for any COVID related symptoms. If your child is displaying any of the symptoms outlined below as per the NHS website, then please let us know as soon as possible.

Symptoms of coronavirus in children

- The main symptoms of coronavirus are:
- a high temperature
- a new, continuous cough – this means coughing a lot, for more than an hour, or 3 or more coughing episodes in 24 hours
- a loss or change to sense of smell or taste – this means they cannot smell or taste anything, or things smell or taste different to normal.

If you require any additional information, please contact Mr Ollie. Email - ollie@sportsfocusuk.co.uk or call 07946007937

Kind Regards,
